"health is not a luxury, it is a necessity"

Dear Friend:

Healthy Insights was born when I was struggling with my own weight and health working long stressful hours in the oil and gas industry. I was 30lbs overweight and lived on fast food; high blood pressure, feeling old, joint pain and mood swings were my symptoms I was 28!

After realizing my health was in jeopardy, I saw a natural doctor that used Nutritional Microscopy (looking at Live blood under a microscope) to determine toxic overload and nutritional deficiencies in the body. Seeing my own blood on the monitor and comparing it to pictures was fascinating (seeing is believing). What I saw changed me forever!

Nutrition and cleansing were the key elements in my transformation. After losing 30 lbs and reversing all my symptoms, my fascination with Health and Wellness grew and Healthy Insights was born!

Cleansing and Nutrition is the answer to all our health concerns, and knowing how to implement them is what Healthy Insights is all about. Whether it's weight loss, anti ageing, body contouring, state of the art detoxification, home wellness products, skin care or nutritional supplements, Healthy Insights has the answer for you!

Health is not a Luxury,
it's a Necessity!

"Like everyone else, I was interested in losing inches, but not interested in trying invasive procedures. Even with diet and exercise those stubborn areas were difficult to reduce. Although somewhat skeptical, I was excited to try out this new laser that was designed for body contouring and fat reduction. The LipoLaser treatments are not only pain free and non-invasive, they are very relaxing and most importantly they work!"
